

**Sports, Play & Active Recreation for Kids!**

The SPARK Programs is proud to participate in the LAUP's Discount Vendor Program! We offer Free Shipping, a 10% discount on our Early Childhood Equipment sets, and a 10% discount on Curriculum through 12/31/07.

SPARK Early Childhood program is designed to provide high activity, academically integrated, enjoyable activities that enhance motor development and school readiness skills in children ages 3-5.

**Program Components:**

When an agency or organization chooses SPARK EC, they receive the three components necessary to create an exemplary physical activity program:

**1. Curriculum: Special 10% discount for LAUP**

SPARK has created an innovative three-ring binder containing over 400 pages of engaging, age-appropriate activities. SPARK EC includes 12 dynamic instructional units presented in scope and sequence via daily lesson plans. SPARK EC is a practical document presented in a simple and easy to use format. Please visit: <http://www.sparkpe.org/curriculumEarlyChildhood.jsp>

**2. On-Site Training:**

The focus of Early Childhood staff development is to train the preschool teacher in activities that motivate and encourage young children to be physically active. SPARK workshops are fun and "hands-on." Preschool teachers learn by doing and are motivated by SPARK's dynamic and knowledgeable trainers. SPARK trainers travel nationwide to provide workshops or attend the EC Institute in San Diego on June 26 & 27, 2007. Please visit: <http://www.sparkpe.org/instituteEarlyChildhood.jsp>

**3. SPARK EC Equipment Sets: Special 10% discount and free shipping for LAUP**

Educational representatives from Sportime, the nation's leading distributor of innovative physical education equipment, work directly with SPARK EC program developers and curriculum writers to select individual items then assemble kits that align perfectly with SPARK activities and their objectives. SPARK staff will consult with any school representative to modify a list to correspond with budgetary constraints and/or equipment needs. Please visit: <http://www.sparkpe.org/equipmentListsEarlyChildhood.jsp>

**Lifetime Follow-up Support:**

SPARK is committed to extensive follow-up via the "SPARK Stars" institutionalization model, offering lifetime support through 800 number and e-mail consultation, and sending a quarterly newsletter to each workshop attendee that includes SPARK updates and teaching tips.

**Next Steps:**

For a free cost analysis based on your needs, call or e-mail SPARK. Presentations and sample curricula are available as well.
